💼 INTERNSHIPS

Web Development
Code Casa • Internship

Sep 2023 - Oct 2023 · 2 Mos

Remote

UI / Ux Design
CodSoft • Internship

Sep 2023 - Oct 2023 · 2 Mos

Remote

Mobile Application Developer
FutoGen Computer Education • Internship

Aug 2022 - Feb 2023 • 7 Mos

Salem, Tamil Nadu, India • On-Site

🎓 EDUCATION

Knowledge Institute Of Technology (KIOT)
Bachelor Of Engineering - BE, Computer Science

Oct 2020 - April 2024

CGPA: 8.368

SRK Matric Hr Sec School
Bachelor Of Engineering - BE, Computer Science

SSLC / HSC, Computer Science

Grade: SSLC - 77.8% HSC - 69%

📦 PROJECTS

● Design Agency Website
May 2024 - Jul 2024

The website for the design agency is called DezDesign.co. It's a Next.js web application that allows users to view the services offered by the company and book a service. The website is built with TypeScript and includes Next.js features. DezDesign.co is fully SEO-optimized and designed with web accessibility in mind, ensuring that it is usable by people with disabilities.

● User Management System
Oct 2023 - Dec 2023

I completed a code-along session to learn and create the User Management System, which is a CRUD application used to add, update, and delete user data. This is a full-stack application developed with EJS for dynamic content loading and MongoDB for storing data in the database.

● Admin Panel
Sep 2023 - Oct 2023

The application is designed as a front-end and dashboard tool, providing users with a visually enhanced way to view data. It offers analytical charts based on the input data and incorporates a dark mode feature for improved usability in low-light environments. Additionally, the application is designed to be responsive, ensuring a seamless user experience across different devices and screen sizes.

● Mixkit App Design
Jan 2022 - Feb 2022

I completed a UI/UX project to learn the fundamentals of UI/UX design. I studied User flows, Prototyping, and Color theory and then applied these concepts to my project.

> "

I thrive on pushing the boundaries of design and application development. With over 5 completed projects, my passion lies in crafting immersive and innovative solutions that seamlessly blend coding expertise with creative design thinking.

🛠 SKILLS

- React
- Java
- Figma
- Davinci Resolve
- PostgreSQL
- Github
- Photoshop

🏆 CERTIFICATIONS
